

2025

**REPORT ON
'Health check up Camp'**

REPORT

**INTERNAL QUALITY ASSURANCE CELL
SRIPAT SINGH COLLEGE**

A Free Health Check-up Camp was organized by Sripat Singh College on February 25, 2025, at 2:30 PM in the College Sick Room, located in the Administrative Building. The objective of this camp was to provide free medical consultation and basic health check-ups to students, faculty, and staff, promoting health awareness and early detection of illnesses. Many individuals, due to time constraints or financial limitations, often neglect routine health check-ups. This initiative aimed to encourage preventive healthcare and ensure timely medical advice.

The health camp was conducted by Dr. Tapas Debnath, a well-known General Physician & Chest Specialist. He provided expert medical consultation, addressing various health concerns, especially related to respiratory issues and chronic conditions. In addition to general consultations, essential health parameters such as height, weight, and blood pressure (BP) were recorded. Routine check-ups performed. Attendees were given guidance on maintaining a healthy lifestyle, managing stress, and preventing lifestyle-related diseases. Special focus was placed on individuals with pre-existing conditions, ensuring they received appropriate medical advice.

The event saw active participation from 25 teachers and non-teaching staff, along with 52 students, all of whom benefited from the free health services. The event was well-organized under the supervision of Dr. Amritendu Halder, who managed enrolments and coordinated the arrangements. The college administration provided the necessary infrastructure and support to make the camp successful. A contact number (7031544305) was shared for prior enrolment, ensuring a smooth registration process. The height and weight measurements helped individuals assess their Body Mass Index (BMI), while BP monitoring helped identify potential hypertension or other cardiovascular risks. The initiative helped raise awareness about regular health check-ups and their importance in preventing severe health issues.

Overall, the Free Health Check-up Camp was a successful and beneficial initiative. It not only provided free medical consultation but also encouraged individuals to prioritize their health. The positive response from participants highlighted the need for such health camps in educational institutions. Given its success, Sripat Singh College should consider organizing similar events in the future, ensuring continuous health awareness and medical support for students and staff.
